

Testimonials from Caregivers

“I was very concerned about being organized, where to get answers, etc. The planner was a lifesaver; it has certainly made this experience much easier. I am not the patient but we live together. I have the total responsibility for his care, Dr. appointments, and answers for his concerns. Thank you very much for the packet and the much needed help it has given me.” – **Dodie F. from Perrin, TX**

“I just wanted to thank you for the CANCER101 Planner that you have created. I bought it for a friend of mine and am going to recommend it to another friend of mine with breast cancer. I lost my Mom to breast cancer when she was only 62 years old. She lived in a small town without access to doctors unless she traveled 1 or 2 hours. I think if she had a tool like your planner it would have allowed her to be more proactive and follow up with her doctors more efficiently. Thanks again for making such a great tool available!” – **Kerry M. from Deerfield, FL**

“If my wife and I had only had the breastCANCER101 planner, her complicated doctor and medication schedules as well as the inundation of medical bills would never have been so overwhelming and taxing. C101 is a much needed tool for anyone touched by cancer.” – **Thomas M., Widower**
